Academic Details

o **Bachelor of Computer Science**
University of Gujrat, Gujrat
CGPA: 3.3/4.0 (2024)

Soft Skills

o Analytical Thinking
o Collaboration
o Leadership
o Adaptability

Technical Skills

o **Programming Languages:**
JavaScript, Python, C/C++
o **Frameworks:**
React.js, Express.js, Ruby on Rails
o **Frontend:**
React.js, JavaScript, HTML, CSS
o **Backend:**
Node.js, Express.js
o **Database:**
MongoDB, SQL, MYSQL
o **Version Control:**
Git, GitHub

Measurable Achievements
o **Web Development Competition:**
Daira 24 FAST-CFD (**Link**)

Interest
o E-Sports
o Cricket

Profile Summary

Computer Science professional with hands-on experience in full-stack web development, specializing in JavaScript-based technologies. Proficient in building scalable, responsive, and user-centric applications using the MERN stack. Known for strong problem-solving skills, adaptability to new technologies, and effective collaboration with cross-functional teams. Actively seeking opportunities to contribute to innovative projects in a dynamic and growth-oriented environment.

Work Experience

Frontend Engineer
Appspresso, United States   Jan 2025 – (Present)

Responsibilities:
  o Build responsive web applications using React.js, Tailwind CSS, SCSS, and Bootstrap with clean, scalable code and optimized performance.
  o Collaborate with teams to deliver intuitive UI components and integrate APIs.
  o Contribute to **Tributify**, a product serving 50K+ active users.

Associate MERN Stack
Dafi Labs, Lahore   Nov 2024 – April 2025

Responsibilities:
  o Served as an Associate MERN Stack Developer at Dafi Labs with a core focus on frontend development.
  o Worked on **Infix AI Bot** using Next.js, Tailwind CSS, Redux, and Material UI to build responsive, user-friendly interfaces.
  o Collaborated with the team to enhance UI/UX and ensure seamless integration with Web 3.0 dApps and AI.

Internship, Web Developer
TWINSPIDER, GUJRAT   September 2023 – November 2023

Responsibilities:
  o Completed a web development internship at TWINSPIDER, gaining hands-on experience as a full-stack developer using Ruby on Rails.
  o Delivered the **Bugzilla** project within one month.
  o Worked with SQL, React.js, and Ruby on Rails to build and optimize features.

Academic Projects

AI-Code-Reviewer (Link)
Tools: React, Node, Express, MySql, Tailwind CSS, Google Gemini Flash 2.0
Description: AI Code Reviewer is a web app built with React, Node.js, Express, MySQL, and Tailwind CSS that uses Google Gemini Flash 2.0 to analyze code and provide intelligent improvement suggestions.

Instella (Instagram like App) (Link)
Tools: React-Native, Expo, Clerk, Convex
Description: Instella is an Instagram-like app built with React Native and Expo, featuring Clerk authentication, Convex real-time database, image posting, likes, comments, follows, and real-time notifications.

AI-MEDLAB FYP (Link)
Tools: React, Node, Express, MongoDB, Python, Google Collabs
Description: Developed **AI-MedLab**, a project using AI and ML to enhance the quality and efficiency of laboratory tests and medicine, featuring modules for customers, doctors, and lab assistants.
